- Telugu

About Me :

Hi everyone! I'm Srikanthraja from Krishnagiri District, Tamil Nadu. I'm currently a B.Tech Computer Science and Business Systems (CSBS) student at Excel Engineering College, Komarapalayam, Namakkal. I'm super passionate about Full Stack Development and UI/UX Design, and I love creating beautiful, functional websites, mobile apps, and web portals that make a real difference!

Skills Overview:

HTML/CSS/JavaScript :

- **HTML (HyperText Markup Language):** The backbone of web development, used to structure content on the web. Proficient in semantic HTML5 to create accessible, SEO-friendly, and well-organized web pages. Familiar with elements like forms, multimedia embeds, and metadata for modern web standards.
- **CSS (Cascading Style Sheets):** Skilled in styling web pages with CSS3, including advanced techniques like Flexbox, Grid, animations, and transitions for visually appealing layouts. Knowledgeable in preprocessors (e.g., SASS/SCSS) for modular and maintainable code, and frameworks like Bootstrap or Tailwind CSS for rapid development.
- **JavaScript (ES6+):** Expertise in creating dynamic, interactive web experiences. Proficient in DOM manipulation, event handling, and asynchronous programming (e.g., Promises, async/await). Experienced with modern JavaScript frameworks and libraries, enabling complex client-side functionality and single-page applications (SPAs).

Python :

- **Python:** A versatile, high-level programming language used for web development, automation, and data processing. Proficient in Python 3.x, with experience in writing clean, efficient, and modular code. Knowledge of libraries like Pandas, NumPy, and Requests for various use cases.

UI/UX Design:

- Expertise in designing user-centered interfaces that prioritize usability, accessibility, and aesthetics. Proficient in conducting user research, creating personas, and mapping user journeys to inform design decisions. Skilled in wireframing, prototyping, and iterative design processes to ensure intuitive user experiences. Familiar with principles like color theory, typography, and design psychology to create visually appealing and functional interfaces.
